

PALACE ADRIA, Narodni trída 40, Prague 1

Adria Palace is an important architectural building, set on the corner of the Prague central roads Narodní and Jungmannova, easily reachable from the underground station Mustek (line A+B). On the second floor of this beautiful corner building is a newly reconstructed restaurant with a capacity of 130 seats and a terrace with a 120 seats capacity, from where visitors can overview the whole „Golden cross of Prague“. As a part of the interior, there are school-styled 70 seats plus extra 90 seats for theatre performances. A markable Atrium covered with a see-through glass roof with a winter garden styled space underneath is an ideal spot for banquettes up to 250 persons or various dinner parties up to 500 persons. As the interior design allows to divide the space into smaller sections, the privacy remains ever for smaller groups of individual.
